

# ABSTRACT OF THE DISCLOSURE

Disclosed herein is a chemiluminescent composition producing white light. The chemiluminescent composition producing white light comprises a blue or green fluorescer or  
5 a mixture thereof as a fluorescer, and a 1,6,7,12-tetrahaloperylenedicarboximide represented by Formula 3 below:

(3)

wherein R is an alkyl or aryl group, and X is Cl or  
10 Br.

The chemiluminescent composition can stably emit brighter and purer white light even at low temperature.
